DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 121-122 are rejected under 35 U.S.C. 103(a) as being unpatentable over Noguchi (US5219786) in view of Zapata et al (US5971565).

Noguchi discloses an apparatus comprising an arc lamp (5) and a pulse discharge supply unit (column 3, lines 5-15) in communication with a pulse excimer laser to produce and irradiance flash. Noguchi does not disclose a liquid cooled arc lamp with a water wall. Zapata et al discloses a liquid cooled arc lamp with a water wall (28, 16). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have replaced the pulse excimer laser of Noguchi with the liquid cooled arc lamp of Zapata et al because, a liquid cooled arc lamp is able to achieve high temperatures and better uniformity.

Allowable Subject Matter

3. Claims 1-16, 18-39, and 41-120 are allowed.

Art Unit: 3742
